

KHATRI MAHMADFAIZ KASAM

Full-Stack Developer | AI Engineer | GenAI Enthusiast

Ahmedabad, Gujarat, India | +91 9408443776 | faizkhatri1819@gmail.com | Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Full-Stack Developer and AI/ML Engineer (BE, Information Technology, CGPA 7.96/10) with hands-on experience building production-grade web applications and GenAI-powered tools. Proficient in React.js, Node.js, Python, REST APIs, and Agentic AI (RAG, LangChain, LangGraph, Prompt Engineering), with a track record of turning AI research into practical, user-facing products.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, TypeScript, Responsive Design

Backend: Node.js, Python, MongoDB, REST APIs

AI / ML: Agentic AI, RAG, LangChain, LangGraph, Prompt Engineering, NumPy, Pandas, Scikit-learn

Tools: Git, GitHub, VS Code, Vercel, Anaconda Navigator

PROFESSIONAL EXPERIENCE

Full Stack Developer — Sysslan IT Solutions July 2026 – Present

- Build full-stack web applications end-to-end across React.js front end, Node.js back end, and database layers.
- Own end-to-end deployment from development and testing through production release, ensuring smooth, reliable rollouts.
- Organize company tech events, coordinating planning, logistics, and execution alongside development responsibilities.

Freelance Web & AI Developer — Upwork 2024 – Aug 2025

- Delivered 5+ freelance projects spanning full-stack web apps and AI-integrated dashboards, maintaining strong client satisfaction.
- Reduced client manual data-entry workload ~40% via an automated Python pipeline integrated with a React.js front end.
- Built responsive, mobile-first interfaces that cut average page load time 30% through targeted performance optimization.

KEY PROJECTS

Let's Travel World | React.js, Node.js, MongoDB, Agentic AI, LLM, RAG, REST APIs

- Built a full-stack, AI-assisted travel planning platform using an Agentic AI workflow and RAG-grounded LLM recommendations for personalized itineraries across 50+ destinations.
- Implemented MongoDB Atlas geo-indexed queries to cut location-based response time 60%, and added multi-language support to reach non-English-speaking markets.

AI Interview Co-Pilot | React.js, Node.js, GenAI, NLP

- Engineered a real-time AI interview-prep platform that generates role-specific questions and evaluates answers instantly, cutting user prep time ~50%.
- Integrated NLP-based answer scoring (tone, keyword density, structure) achieving ~85% alignment with human evaluators; deployed on Vercel with zero downtime.

Job Predictor — Resume & LinkedIn Analyser | Python, ML, NLP, Scikit-learn, Pandas

- Built an ML pipeline parsing resumes and LinkedIn profiles (20+ features) using TF-IDF and NER on 10,000+ samples to predict job-role fit with 82% accuracy.
- Designed a skills-gap analysis module generating upskilling recommendations, projected to lift placement probability ~35%.

EDUCATION

Bachelor of Engineering, Information Technology — GEC Modasa, Gujarat 2024 – 2028

CGPA: 7.96/10, 3rd Year (5th Semester); strong performance in Data Structures, DBMS, and Web Technologies. Active in hackathons, technical fests, and the coding club.

CERTIFICATIONS

NPTEL – Python for Data Science (Completed with Distinction) | NPTEL – Deep Learning (CNNs, RNNs, Transfer Learning) | Self-directed: Generative AI, Prompt Engineering, LLM Fine-tuning

Open to internships, full-time, and freelance opportunities.
